FANUC Control Parts, NEW, Surplus, Repair and Exchange

FANUC was one of the first robot suppliers to develop a series specifically designed for palletising and draws on years of experience in end of line automation. The workspace difference Operating within an optimised work space and benefiting from a high vertical stroke, the M-410 palletising robot is specifically designed to stack pallets up to a height of 2 metres.

FANUC M-410 robot series

The well thought out design of the M-20i series effortlessly improves robot functionality. With all utilities neatly contained within the arm, dressout issues like snagging, tearing and rubbing are a thing of the past. And to complete the package, a shelf on the back of the upper arm allows peripheral equipment to be easily mounted.
