Here is Martin Heidegger's "over-interpretation" of Kant, as Heidegger himself described Kant and the Problem of Metaphysics. Heidegger argues that Kant was able to circumscribe the domain of metaphysics, questions about the underlying nature of reality, to what it would be possible for a human being to experience. Heidegger gives a close reading of Kant's Critique of Pure Reason throughout much of the work, and still some novel ideas emerge.

Kant and the Problem of Metaphysics by Martin Heidegger

A lecture course that Martin Heidegger gave in 1927, The Basic Problems of Phenomenology continues and extends explorations begun in Being and Time. In Basic Problems Heidegger provides the general outline of his thinking about the fundamental problems of philosophy, which he treats by means of phenomenology, and which he defines and explains as the basic problems of ontology.

The problem for Heidegger is not so much the existence of technology or the forms it takes, but rather our orientatonto technology. If we accept this formulation of the problem, then it becomes clear that our response to the various problems brought about by technology cannot be solved simply by making the technology better.
