Multilingualism and multilingualism are often perceived and considered as a problem or a major challenge to individual and/or societal development. In most instances, the only advantage recognized for the bilingual individual is the ability to use two or more languages. Beyond that, monolingualism seems more attractive, and monolinguals especially those speaking a language of wider communication...

Advantages of Bilingualism and Multilingualism...
Leopold’s (1939–1949) case history of the bilingual (German-English) development of his daughter, Hildegard, noted a looseness of connection between word sound and meaning which he attributed to bilingualism. Favorite stories, songs, and rhymes were not repeated with exactly the same wording. Instead, vocabulary substitutions were made, thus showing that the meaning predominated over an...

Fields from applied linguistics to Second Language Acquisition and Teaching, from film studies to history, from computational linguistics to political geography, from medical translation to security studies, from religious studies to anthropology have all been posing new and nuanced questions...

About the Journal | Critical Multilingualism Studies
Multilingualism is the use of more than one language, either by an individual speaker or by a group of speakers. It is believed that multilingual speakers outnumber monolingual speakers in the world's population. More than half of all Europeans claim to speak at least one language other than their mother tongue; but many read and write in one language. Always useful to traders, multilingualism...
